In America’s immigrant Muslim population today, and he demonstrates why Islam has become central to evangelical “end-times” narratives. Pointing to many evangelicals' unwillingness to acknowledge Islam’s theological commonalities with Christianity and their continued portrayal of Islam as an “evil” force, Islamic officials worry that Christians themselves are inadvertently blurring the lines of evangelism to the Muslim world. American Christians and Islam are essential reading for anyone seeking to understand the causes of the mounting tensions between Christians and Muslims today.

The Rights Turn in Conservative Christian Politics
Andrew R. Lewis 2017-10-19 The Rights Turn in Conservative Christian Politics documents a recent, fundamental change in American politics with the waning of Christian America. Rather than emphasizing morality and fearing antagonism with the secular, conservative Republicans of upper-class, white Protestant persuasions have now come to dominate the movement. This new movement, the “Christian right,” seeks to impose its religious views on all aspects of American life, from schools and universities to the workplace and the courts. It has become a major political force, and its success has led to a shift in the political landscape of the United States. The Rights Turn in Conservative Christian Politics examines the factors that have contributed to this shift, and what it means for American democracy.

The Power Worshippers

The book documents the movement’s history, its impact on politics, and its role in shaping American democracy. It reveals how the Religious Right has used its influence to shape legislation, influence public opinion, and control the political process. The book also explores the movement’s relationship with other political groups, and its role in promoting a conservative agenda.

The Global War on Christians
Dispatches from Front Lines of Anti-Christian Persecution
John L. Allen Jr.

The global war on Christians continues unabated. The state of the faith today is so grave that more Christians are being killed today by violence than at any time in human history. Christians suffer more than Jews, Muslims, and homosexuals combined. They are persecuted for their beliefs and are subjected to violence, discrimination, and violence. This is a global crisis that demands a response.

The Cross of War is a chilling account of the violence that Christians face around the world. It is a call to action to protect these people and to promote their freedom. This is a must-read for anyone who cares about human rights and human dignity.
